the 1115 Bridge to Reform Waiver Special Terms and Conditions (STC 100) specify that quality assurance and monitoring of CBAS must be consistent with the managed care Quality Strategy required by federal regulations and incorporated into DHCS' contracts with managed care plans. STC 100 specifically states that quality assurance and improvement for CBAS must assure participant health and safety and address:

1. The quality and implementation of the CBAS beneficiary's person-centered IPC; and
2. The provider's adherence to State licensure and certification requirements.

Stakeholders indicated they would like the workgroup to address additional areas including:

1. Quality metrics for person-centered care/continuity of care.
2. Clinical and program outcome measures/indicators.
3. CBAS staff training on best practices and quality improvement.
4. Improved use of existing enforcement provisions for CBAS centers that do not meet licensing or certification standards.
